

ULTIMATE DIESEL MAX

ULTIMATE AUTOMOTIVE PRODUCTS

PART# UD404

FACT SHEET

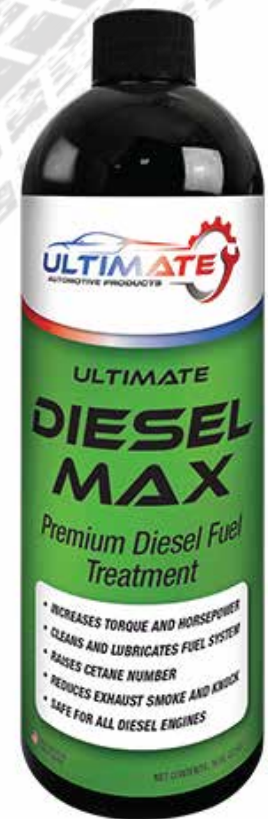

The **Ultimate Automotive Products Ultimate Diesel Max** is a premium diesel fuel treatment engineered to maximize performance, improve efficiency, and protect today's diesel engines. Formulated with advanced cleaning and lubricating technology, Diesel Max enhances combustion, increases cetane levels, and helps restore lost power while protecting critical fuel system components.

Advantages

- **Increase Torque and Horsepower:** Enhances combustion efficiency to help deliver stronger performance.
- **Raise Cetane Number:** Improves ignition quality for smoother, more complete combustion.
- **Clean Fuel System Components:** Removes deposits from injectors, pumps, and fuel lines.
- **Lubricate Fuel System:** Provides added lubrication to protect injectors and high-pressure fuel pumps.
- **Reduce Exhaust Smoke:** Promotes cleaner combustion to help minimize black smoke.
- **Reduce Engine Knock:** Improves ignition stability for smoother engine operation.
- **Improve Fuel Efficiency:** Helps optimize fuel burn for better overall economy.
- **Safe for All Diesel Engines:** Compatible with modern and older diesel engines, including turbocharged applications.

Features

- **Advanced Diesel Cleaning Formula:** Breaks down carbon deposits and injector buildup.
- **Cetane Boost Technology:** Improves cold starts and combustion performance.
- **High-Pressure Pump Protection:** Enhances lubrication in ultra-low sulfur diesel fuels.
- **Emission System Safe:** Designed for use with modern diesel emission systems when used as directed.
- **Water Control Support:** Helps manage moisture commonly found in diesel fuel.
- **Professional-Grade Performance:** Ideal for light-duty, heavy-duty, and fleet applications.

*Invest in the **Ultimate Automotive Products Ultimate Diesel Max** to increase power, protect your fuel system, and keep your diesel engine running strong and efficient. Drive with confidence and experience the difference!*
