

ULTIMATE POWER STEERING SERVICE KIT

PART# UPK813

FACT SHEET

The **Ultimate Automotive Products Ultimate Power Steering Service Kit** is a complete steering system maintenance solution designed to clean, protect, and restore hydraulic steering performance. This kit combines a professional-grade power steering cleaner with a universal full synthetic power steering fluid to remove harmful deposits, improve steering smoothness, and provide long-lasting protection for pumps, racks, and internal components.

Advantages

- **Complete System Cleaning and Protection:** Cleans and conditions the entire power steering system.
- **Restore Smooth Steering:** Improves responsiveness and reduces stiffness.
- **Reduce Noise:** Helps eliminate whining and groaning caused by contaminated fluid.
- **Protect Steering Components:** Reduces wear on pumps, racks, and valves.
- **Improve Hydraulic Flow:** Restores proper pressure and circulation.
- **Extend Component Life:** Helps prevent premature steering system failure.
- **Universal Fluid Compatibility:** Works regardless of original fluid color.
- **Electric System Compatible:** Suitable for vehicles with electric power steering systems requiring serviceable fluid.

Features

- **Advanced Power Steering Cleaner:** Removes sludge and varnish safely and effectively.
- **Full Synthetic Universal Fluid:** Provides superior lubrication and long-term protection.
- **Anti-Wear and Thermal Stability Technology:** Protects against heat and friction.
- **Deposit Suspension Technology:** Ensures safe removal of contaminants during fluid exchange.
- **Seal Conditioning Enhancement:** Helps maintain system integrity and reduce leaks.
- **OEM-Compatible Formula:** Designed for broad domestic and import application coverage.

Invest in the **Ultimate Automotive Products Ultimate Power Steering Service Kit** to restore steering performance, protect critical components, and maintain smooth, reliable operation. Drive with confidence and experience the difference!
