

# ULTIMATE AUTOMOTIVE TRANSMISSION FLUID EXCHANGE KIT

PART# UTFK712

FACT SHEET

The **Ultimate Automotive Products Ultimate Automotive Transmission Fluid Exchange Kit** is a comprehensive transmission service solution designed to restore shift quality, improve transmission performance, and maintain proper vehicle operation. Engineered with advanced transmission cleaner and conditioner formulations, it removes harmful varnish, sludge, and deposits while restoring fluid performance and conditioning internal seals, ensuring smooth and reliable transmission operation.

## Advantages

- **Restore Shift Quality:** Improves smooth, consistent shifting while reducing harsh engagement, hesitation, and shudder.
- **Extend Transmission Life:** Helps prevent premature wear and costly repairs by removing damaging internal deposits.
- **Clean Internal Components:** Cleans valve bodies, solenoids, clutch passages, and torque converters for proper hydraulic operation.
- **Seal Conditioning:** Rejuvenates seals and O-rings to help reduce leaks and maintain proper fluid pressure.
- **Heat Reduction:** Improves lubrication and fluid flow to help transmissions operate at lower temperatures.
- **Noise and Vibration Reduction:** Helps eliminate chatter, shudder, and rough transmission operation.
- **Restore Fluid Performance:** Enhances lubrication and friction characteristics of new transmission fluid.
- **System Safe:** Will not harm electronically controlled transmissions or OEM-approved components.

## Features

- **Advanced Transmission Cleaner:** Breaks down varnish, sludge, and carbon buildup inside the transmission.
- **Valve Body and Solenoid Cleaning:** Restores proper shifting and hydraulic pressure control.
- **High-Performance Transmission Conditioner:** Improves fluid stability and protects against oxidation and breakdown.
- **Seal Rejuvenation Technology:** Helps maintain seal elasticity and prevent fluid leaks.
- **Friction Modifier Enhancement:** Optimizes clutch engagement and torque converter performance.
- **Anti-Wear Protection:** Reduces friction and wear to extend component lifespan.
- **OEM-Compatible Formula:** Safe for use with conventional and synthetic transmission fluids.

Invest in the **Ultimate Automotive Products Ultimate Automotive Transmission Fluid Exchange Kit** for smoother shifting and long-lasting transmission protection. Drive with confidence and experience the difference!

**Ultimate Automotive Products – Performance You Can Feel Mile After Mile!**
