

ULTIMATE TRANSFER CASE GEAR OIL

PART# UG14032/UG14064

FACT SHEET

The **Ultimate Automotive Products Ultimate Differential Gear Oil 75W-140** is a heavy-duty full synthetic gear lubricant engineered for high-load, high-torque, and extreme-duty applications. Designed for trucks, SUVs, towing, and performance vehicles, this gear oil provides maximum protection against heat, wear, and shear while maintaining smooth, reliable operation under the most demanding conditions.

Advantages

- **Maximum Gear Protection:** Designed to protect differentials under extreme loads and towing conditions.
- **Reduce Wear and Friction:** Minimizes gear and bearing wear under high torque and stress.
- **Superior Heat Resistance:** Maintains viscosity and protection at elevated operating temperatures.
- **Heavy-Duty Performance:** Ideal for towing, hauling, and severe driving conditions.
- **Extend Differential Life:** Helps prevent premature failure and costly repairs.
- **Noise Reduction:** Promotes smoother, quieter differential operation.
- **Oxidation Resistance:** Resists breakdown, sludge, and varnish formation.
- **System Safe:** Compatible with conventional and limited-slip differentials when used as directed.

Features

- **Full Synthetic Gear Oil:** Delivers maximum durability and long service life.
- **75W-140 Viscosity Rating:** Designed for high-load and severe-duty applications.
- **Extreme Pressure Additives:** Protect gears under shock loads and high torque.
- **Shear Stability Technology:** Maintains viscosity under extreme stress.
- **Thermal and Oxidation Stability:** Protects against heat-related breakdown.
- **OEM-Compatible Formula:** Meets or exceeds OEM specifications where 75W-140 gear oil is required.

Invest in the **Ultimate Automotive Products Ultimate Differential Gear Oil 75W-140** for maximum protection, durability, and confidence in the toughest driving conditions.
